**To All Wine Lovers,**

When Mike and I traveled to Napa and Sonoma with Denman Moody, it was a once-in-a-lifetime excursion. Denman's knowledge of wine and his relationships with the vintners of the region is unsurpassed. From the major winemakers to those hidden gems, Denman knows them all. His tenure in the industry means he has solidified relationships across the California wine country, and this broad reach enables him to open all of the right doors!

Whether you're a novice or someone knowledgeable about wine, a trip either designed by Denman or with Denman will give you invaluable insight and incredible pleasure. You will have some serious bragging rights when you get home!

But wait. There's more. Denman is a full-time wine enthusiast and his passion resonates with anyone who enjoys a first class experience. Rather than buy some packaged deal, Denman will ask questions and personalize your trip so it will be perfect. For us, a day in Sonoma and two days in Napa was unforgettable!

A trip to Sonoma and Napa personally arranged by Denman, or even better, with Denman, will put you in the top 1% or 2% of all visitors to these areas!

Cheers! Prost! Salud!

Celeste Pitre
